Testimonials

"I was looking for a unique team building experience for our team.

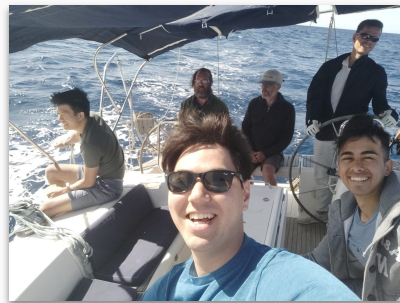

I went onto the boat not knowing a single thing about sailing. By the end of it I was managing the head sail and tacking...it was a great learning experience. The instructor did a great job of giving us directions and organizing the event. Everyone on staff was easygoing and great to talk to. I hope that we can do another event with these guys sometime in the future."

– Jihee Lee, Evolution Gaming, online dealer team leader

"I wanted to thank you again for a great time last week. Our Team had a great time, it was the PERFECT way to start a business meeting, down time, working and communicating as a Team, learning from one-another, learning about sailing from you. What a great day. I would highly recommend this activity for any group that needs to develop more as a concessive Team !"
