

# 10 Day Greece-Sicily-Malta Mile Builder

Laviron(Athens) - Mykonos - Paros - Santorini - Crete - Syracuse - Malta

8th - 17th September 2025

**An Unforgettable Offshore Adventure  
Over 600 NM**

*Malta - Heart of Mediterranean Sea*

Set sail on an unforgettable journey **from Greece to Malta**, navigating through the Aegean's deep blue waters, past rugged island coastlines, and across the vast open sea.

This week-long mile-building adventure blends the thrill of **offshore passages** with the charm of historic Mediterranean ports, offering the perfect challenge for aspiring skippers and seasoned sailors alike.

Take turns at the helm as you navigate through the Greek islands, cross the Ionian Sea, and sail past Sicily, **logging over 600NM**, including Yachtmaster qualifying passages.

With hands-on coaching, passage planning, night sailing, watch rotation, and real offshore experience, this trip is both a training ground and an unforgettable voyage.

- **10 days cruising with RYA instructor guidance**
- Option for couples, families or groups on 46ft cruise yachts
- Island-hopping along the way
- **You can join this trip as RYA Competent Crew course**
- Unlike rushed itineraries, this route allows for generous time ashore to explore ancient ruins and savor authentic local cuisine.

Whether you're looking to learn sailing fundamentals, improve your boat-handling skills, or simply enjoy a relaxed passage, this trip is designed for all levels

## Passage Planning & Navigation

- Planning the route before departure, taking into account weather, tides, currents, hazards, and stopovers.
- Identifying way points, adjusting course, and ensuring the passage is safe and efficient.

## Heavy Weather Sailing & MOB

- Techniques to handle strong winds, rough seas, and unexpected squalls.
- Using storm sails, heaving-to, deploying drogues, and managing crew fatigue.
- Practicing man-overboard drills.

## Night Sailing & Watchkeeping

- Sailing in darkness with limited visibility using navigation lights, radar, AIS, and chart plotters.
- Watchkeeping involves standing shifts (watches) during long passages, where crew members rotate roles.

## Anchoring & Mooring Techniques

- Learning how to safely anchor in different seabed conditions.
- Mooring in various settings, including marinas, pontoons, and mooring buoys.

## Sail Handling & Trim Optimization

- Adjusting sails to maximize speed, efficiency, and comfort based on wind conditions.
- Understanding how different sail settings affect the boat's performance.

## Radio Communication & COLREGS

- Using VHF radio to communicate with harbor masters, coast guards, and nearby vessels.
- Understanding Collision Regulations (COLREGs) for right of way at sea.
